When the delay is at least five hours or more, the passenger also has the right to assistance consisting of reimbursement of the full cost of the ticket at the price at which it was bought within 7 days, i.e. for the part or parts of the journey not made, and for the part or parts already made if the flight is no longer serving any purpose in relation to their original travel plan, together with, when relevant, a return flight to the first point of departure, at the earliest opportunity.

- f) The passenger does not have these rights if the air carrier and its servants and agents took all the measures that could reasonable be required to avoid the damage or it was impossible for them to take such measures. The passenger also does not have these rights if the damage was caused or contributed to by the negligence or other wrongful act or omission of the passenger or the person from whom they derive their rights.
